\* [redacted] Comment. No other information on the Soviet supply traffic in and through the 7th Subdistrict Office, Frankfurt/Oder, of the Berlin Railroad District Headquarters in December 1951 and January 1952 is available for comparison. With 770 carloads of supplies having been handled in the subdistrict concerned, the volume of the supply traffic is considered low during the time covered by the report. Some of the shipments were also mentioned in other reports. The motor vehicles reported belong to the GOMI, an unidentified AM division of the Fourth Gds Kres Army, and to the air force.
